

Terms and Conditions for the P114 Dataset

1. Access Request Requirement

Although this dataset is openly available for anyone to use, all users are required to **submit an access request** before downloading or accessing the data.

This process exists solely to support **reporting and impact monitoring**, ensuring the dataset creators can understand who is using the data and for what purposes.

2. Permitted Use

The P114 data has been obtained from Elexon and is subject to its “[BSC Public Data Licence for P114 Data Items](#)”.

In summary, users are free to copy, publish, distribute and transmit the information; and to adapt the information.

3. Attribution

When using the dataset in publications, reports, software, or any other output, users are asked to acknowledge the dataset creators and the UKERC Energy Data Centre.

Suggested Citation (Harvard Style)

Elexon (2026) *P114 half-hourly GB electricity grid data*. UKERC Energy Data Centre.

4. Data Quality and Disclaimer

The dataset is supplied “**as is**”.

No guarantee is provided regarding completeness, accuracy, or suitability for any specific purpose.

Users should consult the dataset metadata for important details about data history and known limitations.

5. Sharing and Redistribution

The dataset may be:

- shared
- redistributed
- incorporated into tools, workflows, or software
- modified, transformed, or built upon

No additional permissions are required beyond the initial access request.

6. Reporting of Use (Optional but Appreciated)

Users are encouraged to notify the dataset creators or the UKERC Energy Data Centre of outputs based on the dataset, including:

- academic publications
- conference presentations
- tools or software
- practical applications in industry or policy

This information aids in demonstrating dataset impact and supports continued provision of open data resources.
